IT'S EXCITING IT'S NEW! HOPE STAR'S MYSTERY FARM CONTEST

Mystery Farm No. 2

#### Here's How the Contest Works ---

Each week, Hope Star will picture an aerial view of a farm located in the Hope Trode Area. Second in a series of "Mystery Farm" photos is pictured above. No one on the Star staff knows whose farm this is, but if the Owner will stop in and identify his farm. he will receive a beautiful mounted aerial view picture. The "Mystery Farm" will be identified in Hope Star the following week and the winners names will be published. Only one winner each week to an immediate family. The contest is open to everyone except employes of Hope Star and their families, the County Agent, Home Demonstration Agent, their office staffs and their families. Watch for these photos each week, for a picture of your farm may be included in this series. We hope you will enjoy this contest and take an active part in it. The "Mystery Farm" series is sponsored by the merchants shown on this page.

#### Here's What You Win---

The first person coming to Hope Star office and correctly identify the "Mystery Farm" will receive two passes to the Saenger Theatre. You must register your answer at the Star office Hope Star will award prizes to the first three (3) persons correctly identifying the "Mystery Farm." This state's part of the National System of Interstate Highways is a vital link in a road system that reaches every state in the Union, 42 state capitals and 182 of the 199 cities with a population of over 50,000. The map above shows this 40,000-mile network. These are the interstate routes authorized by Congress and selected by the Bureau of Public Roads and the various state highway departments, Although comprising only 1% of the total road mileage in the country, these key routes carry over 20% of the rural traffic.

These roads are essential to the smooth and economical flow of commerce; the swift movement of men and material in defense; the quick and efficient evacuation of cities in emergencies and the safe, comfortable and enjoyable travel of motorists.

The sections of the heavily-traveled Interstate System in this state should be paved with the longest-lasting, most economical pavement-Concrete. Concrete is moderate in first cost, requires little maintenance and lasts a lifetime. Result: low-annual-cost service.

And concrete is the safe payement. Its gritty texture permits quicker, safer stops, wet or dry. And its light-colored surface reflects more light at night, providing better nighttime visibility.

Mr. Motorist, your taxes will pay for building the sections of the secretate System in this state. Insist on the best investment of your money. Insist on low-unnual-sost concrete-for these important roads.

OLDSMOBILE

This state's part of the National System of Interstate Highways is a vital link in a road system that reaches every state in the Union, 42 state capitals and 182 of the 199 cities with a population of over 50,000. The map above shows this 40,000-mile network. These are the interstate routes authorized by Congress and selected by the Bureau of Public Roads and the various state highway departments, Although comprising only 1% of the total road mileage in the country, these key routes carry over 20% of the rural traffic.

These roads are essential to the smooth and economical flow of commerce; the swift movement of men and material in defense; the quick and efficient evacuation of cities in emergencies and the safe, comfortable and enjoyable travel of motorists.

The sections of the heavily-traveled Interstate System in this state should be paved with the longest-lasting, most economical pavement-Concrete. Concrete is moderate in first cost, requires little maintenance and lasts a lifetime. Result: low-annual-cost service.

And concrete is the safe payement. Its gritty texture permits quicker, safer stops, wet or dry. And its light-colored surface reflects more light at night, providing better nighttime visibility.

Mr. Motorist, your taxes will pay for building the sections of the secretate System in this state. Insist on the best investment of your money. Insist on low-unnual-sost concrete-for these important roads.

If you are now adding top oil to your gasoline...

# on every gallon of gasoline you buy!

New Lion gasolines contain Lionite—amazing additive that cleans and lubricates your engine—at no increase in cost

If you are currently adding a top oil to your gasoline, you can save up to  $2\frac{1}{2}$  cents a gallon on every gallon of gasoline you buy—just by switching to new Lion gasolines with Lionite.

Lionite is Lion Oil Company's new, better additive that lubricates and protects vital moving parts, and cleans your engine with its solvent-detergent action to let all the power come through. When you use new Lion gasolines with Lionite, you have no need for a top oil. Since most top oils cost you about 25 cents for every ten gallons of gas you buy, you save 2½ cents on every gallon by switching to new Lion gasolines with Lionite.

LIONITE, amazing discovery of Lion scientists, actually SUPERCHARGES your motor

Car owners report Lionite:

✓ ADDS KNOCK-FREE POWER AND PEP! ✓ BOOSTS GAS MILEAGE AS MUCH AS 16%!

Extensive tests made by a well-known independent research institute prove that Lionite in Lion's new gasolines:

- √ Reduces harmful intake valve deposits up to 85% √ Reduces combustion chamber deposits up to 50%
- √ Improves compression up to 50%

LIONITE is in Lion gasolines exclusively. A tankful will convince you. Stop at the sign of the Lion, and get new Lion gasoline with Lionite. It can save you money!

## The Thunderbird Y-8 engine in the '56 Ford

And this Thunderbird Y-8 is the standard eight in all Ford

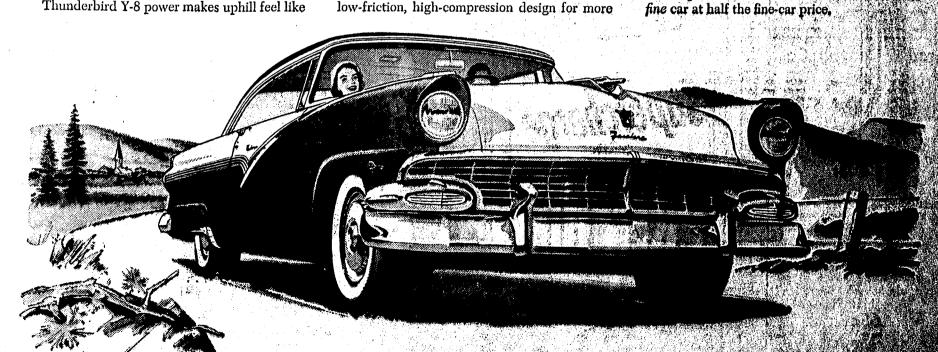

Now you can have the power you've always dreamed about . . . and in a family-size Ford! When you order an eight-cylinder Ford Fairlane or Station Wagon model you get the Thunderbird Y-8-the very same engine that made Ford's Thunderbird famous.

Thunderbird Y-8 power makes uphill feel like

downhill . . . distances disappear. You pass in instants when instants count. And when you want take-off power you get it . . . and now! You get a 4-barrel carburetor and dual exhausts. As in all Ford engines, you get a 12-volt ignition system for fast all-weather starts . . .

miles from less gas. And, above all, the new Thunderbird eight is a Y-8 engine with deep-block build for quieter, smoother performance ... longer engine life.

In addition to Thunderbird lightning, Ford for '56 offers you the Thunderbird look! In every long, low line—every graceful contour—you can see it's a blood brother of the fabulous Thunderbird, America's most exciting car! What's more, you get Ford's exclusive Lifeguard Design for added protection. Come in and Test Drive the fine car at half the fine car price.
